License Exception for Transient Dependency with MPL License

We need the exception for one of the components which is a transient dependency for Nephio. Because this component is MPL 2.0 licensed which is a copyleft license. However MPL is the least restrictive copy left license, in other words most friendly copyleft license. We spoke to LF and they recommended this process for getting the exception from TSC.Component details:Component : github.com/hashicorp/go-version
version : 1.2.1
License : https://github.com/hashicorp/go-version/blob/main/LICENSEI am bringing this up now because we do not have the luxury of time to wait till the next TSC meeting. Hence please take a look at it and the process of giving the exception. I have also posted this message in slack.

How CNCF manages it :
I did a bit of research on the policy adopted by CNCF for k8s and found this information. This is for your reference.https://github.com/cncf/foundation/tree/main/license-exceptions
These are the allowed licenses
https://github.com/cncf/foundation/blob/main/allowed-third-party-license-policy.md#cncf-allowlist-license-policy They made certain exceptions
https://github.com/cncf/foundation/blob/main/license-exceptions/cncf-exceptions-2019-11-01.json

Organization	Name	Vote
Sandeep Sharma	Aarna Networks	
Erhan Lokman / Erol Ozcan	Argela	
Daniel Bernier / Marc-Alexandre Choquette	Bell Canada	Yes
Sandip Sarkar / Chandra Thakare	Capgemini	
Eric Gaudet	Casa Systems	Yes
Bernard Tsai	Deutsche Telekom	Yes
Oleg Berzin	Equinix	
Ciaran Johnston	Ericsson	Yes
Sanju Abraham / Ravi Ravindran	F5	Yes
Kandan Kathirvel (Chair)	Google	Yes
Cathy Zhang / Sundar Nadathur	Intel	Yes
Sebastian Scheele	Kubermatic	
Jane Shen	Mavenir	
Timo Perala	Nokia	Yes
Eric Debeau	Orange	Yes
Sana Tariq (Vice-Chair)	TELUS	Yes
Fabrizio Moggio	TIM	
Gene Bagwell	Verizon	
Hunor Demeter / Padma Sudarsan	VMware	
Iain Wilkinson / Riccardo Gasparetto Stori	Vodafone	
Seshu Kumar Mudiganti	Wind River	Yes
